Group Project - Final Paper

New Attempt

- Due Dec 10, 2025 by 11:59pm
- Points 35
- Submitting a file upload

The group project paper is a narrative of the progress of the project. You want to include in the paper a written narrative of many of the items included in the group presentation, including:

- A brief introduction of the organization with whom you are working
- An explanation of the problem or issue that was addressed
- Steps that were taken to address this problem, including:
  - An overview of data sources
  - Analytical techniques that were used
  - Discussions with the client to obtain data or to fine tune the scope of the project
- Any challenges you faced and how you overcame them
- A presentation of the results of any analyses, including:
  - Visualizations
  - Results of any analyses performed
- A discussion of the implications of the results along with a conclusion

MOST IMPORTANTLY you need to include in this submission any files that you used during the analysis including:

- Datasets or links to datasets if they are very large (more than 500MB)
- Any Python, R, SAS or other code that was used for analysis
- Any Tableau, Excel or other files that were used for analysis or visualization
- Any project files including Orange or other machine learning or other project files that were referenced in the paper or presentation
